Sir:

PRELIMINARY AMENDMENT

Please amend page 6, line 13, to correct a typographical error in the second patent  
number as illustrated in the marked-up version of the paragraph below:

A skilled artisan can find many methods for preparing a polymeric foam composite  
suitable for use, in combination with a composite web, as part of the present invention. For  
example, USP 4,118,533; [4] 5,837,743; and 4,028,958 (each incorporated herein by  
reference) provide suitable teachings on process for fabricating reinforced foam composites  
that, when modified to include a composite web, are suitable as processes of the present  
invention.

Respectfully submitted,

*Steven W. Mork*
